This single story bungalow style house of 994 square feet features spacious bedrooms and living spaces, including generous front and back porches, despite its small footprint.

The home includes two bedrooms, one full bathroom, laundry room, and an open kitchen, living, and dining area perfect for entertaining.

The Craftsman inspired exterior offers a gabled roof with a shed dormer and large covered front and back porches. At only 20 feet wide, this plan is ideal for narrow and deep lots.
